INTRODUCING STAYSAFE

The StaySafe All-in-1 Fire Extinguisher

- The StaySafe All-in-1 fire extinguisher will extinguish dangerous **Lithium-Ion** battery fires.
- The StaySafe All-in-1 will put out 10 different types of fire including textile, paper, gasoline/diesel, cooking oil, bio-ethanol, and light electrical.
- The StaySafe All-in-1 is compact, lightweight, easy to use, environmentally friendly and non-toxic.
- Extinguishes dangerous **Lithium-Ion** battery fires - the battery technology found in phones, laptops, e-scooters and more

WHY THE NEED

- Over 353,500 house fires occur in the United States each year resulting in over 2,800 deaths and 11,000 injuries.
- Fire doubles in size every 30 to 60 seconds.
- Confusion over type, size and color of extinguishers to use. 76% of people wouldn't know what type of extinguisher to use in an emergency.
