

Why are #5983 All Sport Brand Powder Packs smaller in size than #5982 Gatorade Packs yet with same 2.5 gal yield per pack?

#5982 Gatorade Powder packs are bigger to fit all the sugar it contains (26 servings per bag x 21 grams of sugar per serving = **546 grams of sugar per bag**)

Whereas #5983 All Sport Powder Packs are sugar free, so can be much smaller bags.

Both have same yield, rating of heat relief, taste per mfg rep
