

# CLEANING TOOLS

**MILWAUKEE DUSTLESS metal back brooms last three times as long as wood back brooms. Choose 24", 30" or 36". Use #792 handles.**

## #770 SOFT BROOM

A blend of soft polypropylene gets the light dust and dirt off terrazzo, tile, linoleum, and painted or waxed floors. Gives extremely long wear.

## #772 MEDIUM BROOM

Medium-stiff polypropylene broom designed for wood, concrete, and competition floors. Practical for machine shop use because chips and lathe turning will not mat or pack into tufts. Not harmed by water, chemicals, or grease, and is extremely long wearing.

## #773 STIFF CENTER/FINE BORDER BROOM

A stiff center moves heavy debris. Fine poly border gets light dust and dirt. Sweeps well on a variety of surfaces.

## #774 EXTRA STIFF BROOM

Extra stiff polypropylene with the spring and snap to sweep heavy debris. For use on your toughest jobs. Resists abrasion, grease, oil, acid, and alkalis. For use on cement, concrete, asphalt, and greasy floors. Can be used to scrub cement with our powdered floor soaps.

## #805 BLACK NEOPRENE SQUEEGEE

For super fast cleanup. The double, all neoprene blades conform better to floor surfaces, cleaning so well that floor drying time is significantly reduced. For food service, locker rooms, entranceways, etc. Excellent for removing liquids from uneven surfaces like tile or grout. Available in 24", 30", and 36".

## #792 HANDLE FOR BROOMS AND SQUEEGEES

Handle with 3/8" steel stud. Available in wood and all steel.
