

At 1st Ayd, we stock a complete line of high-quality cloth rags designed for light, medium, and heavy-duty cleaning tasks. Whether you're wiping grease, oil, ink, or water, our rags deliver consistent performance and value. The following are ranked in order of best seller.

SKU	Rag Type / Material	Typical Use	Approx. Rags per lb	Ideal For
999M	Colored T-Shirt Knit	General cleaning & polishing	8–10	Grease & Oil, Solvents, Water, Ink, Multi-Use
999G	Sweatshirt / Heavy Knit	Tough wiping, heavy grease cleanup	4–6	Ink, Grease & Oil, Solvents, Water, Tar & Asphalt, Multi-Use
999NE	Mixed Cotton (White)	Shop wiping, maintenance, light solvents	6–8	Ink, Grease & Oil, Solvents, Water, Tar & Asphalt, Multi-Use
999T	Huck Towels	Polishing, finishing, detail work	8–10	Low Lint, Glass, Ink, Grease & Oil, Solvents, Water, Tar & Asphalt, Multi-Use
1004	Turkish Terry Towels	Absorbing water, oil, and solvents	3–5	Grease & Oil, Solvents, Water, Tar & Asphalt, Multi-Use
999I	Flannel / Thermal	Gentle surface wiping, polishing	5–7	Ink, Grease & Oil, Solvents, Water, Tar & Asphalt, Multi-Use
999K	Grey T-Shirts Knit	Light cleaning & general wiping	8–10	Grease & Oil, Solvents, Water, Tar & Asphalt, Multi-Use
999N	New White Knit	Cleanroom, finishing, glass, or metal surfaces	9–10	Low Lint, Glass, Ink, Grease & Oil, Solvents, Water, Multi-Use

Why Rag Counts Vary:

- **Material Density:** Terry cloth is heavier than a t-shirt knit, so there are fewer pieces per pound.
- **Rag Size:** Standard cuts range from 14"×14" to 20"×20", with larger or smaller pieces directly affecting count.
- **New vs. Recycled:** Recycled rags have more variation in size and weight than new materials.

Why Choose 1st Ayd:

- Consistent packaging and labeling
- Range from economy to premium grades
- Expert reps to help match the right rag for your application
