DRILL BITS & TOOL ACCESSORIES

Norseman Drill Bit Set

Designed for drilling work-hardening stainless steel and other hard metals. Mechanic-length Type 175-AG bits feature a 135° split point for accurate starting without a center punch. Heat-treated, nitro-carburized steel resists heat and stays sharp. Gold finish improves lubricity for smoother drilling.

No	Description	Size	Qty/Set	Sold By
4000	Type 175-AG (Metal Case)	1/16" to 1/2"	29 bits	Set
4003	Type 175-AG (Round Plastic Case)	1/16" to 1/2"	29 bits	Set

Vortex Drill Bit Set

Vortex point has a step drill design for durability and heat reduction increasing the life of the drill bit. 3-flats on shank eliminates slippage. Mechanics length construction creates sturdier bit. Split-point design eliminates use of center punch. For use on: Cast Iron, hard steel, mild steel, sheet metal, brass, copper, and acrylics.

No	Description	Size	Qty/Set	Sold By
4005	Best Selling! Vortex Drill Bit Set (Round Plastic Case)	1/16" to 1/2"	29 bits	Set
4006	Vortex Drill Bit Set (Metal Case)	1/16" to 1/4"	13 bits	Set

CRYO-TECH Drill Bit Set

Cryo/Nitride coating creates a case-hardened surface resistant to rust and heat extending tool life. Cryogenic Treatment at -300°F increases strength while reducing brittleness. 1/16" - 1/2" drill bits. Cutting angle 135°. Truck and trailer repair and all MRO applications.
